The 883 is a proper Harley V-twin and as such vibrates, clunks and emits that classic 'potato, potato' soundtrack. But it's not a bike for everyone.... The Iron isn't the most practical of machines and a fairly small 12.5-litre fuel tank and exposed riding position means that long journeys are a bit out of its remit.

This review is still relevant, while the Iron 883 came out in 2010 - the Sportster hasn't changed much since 2007. Significant changes were 2004: Rubber-mounted engine, 2007 all Sportster Harley models went to electronic fuel injection. Unless you like vibration or mucking about with carbies - you want both of these upgrades.

manufacturers could build. But on rare occasions a manufacturer produced a machine that nobody wanted. Such was the case with the Harley-Davidson Model K. The Model K had most of the features buyers wanted in a modern machine, like hand-operated clutches, foot-operated shifters, and cool-running aluminum heads, but it lacked perhaps the most important technological upgrade: a modern overhead-valve valve-train design. The Model K retained the antiquated side-valve design because of arcane AMA racing rules written when Harley-Davidson and Indian competed head-to-head on American racetracks, but by 1952 Indian was on its last legs. This should have made the Model K a massive sales success. What nobody counted on was the British bike invasion. Thanks to their modern overhead-valve engines, the lightweight British bikes humiliated the side-valve Harleys on the track and on the street. Upgrades to the Model K didn't help; Harley finally relented and introduced a new overhead-valve middleweight for the 1957 model year. Dubbed the Sportster, it was everything the Model K was not. More importantly, it was faster than the British competition. Thus began the Sportster's sixty-year reign. Harley-Davidson Sportster: Sixty Years tells the complete Sportster story. Noted Sportster expert Allen Girdler covers all the bikes--the XLCH, Caf_ Racer, XR1000, XLX, 883, Iron, Forty-Eight, Seventy-Two, and Nightster--that have made the Sportster one of the most iconic motorcycles on earth.

This illustrated guide is packed with interesting facts and follows the history of the famous Harley-Davidson company and the development of its famous bikes, which have earned a special place in the hearts of enthusiasts everywhere. The story dates from 1903 when Bill Harley and the Davidson brothers, with no thought of fame or fortune, decided to build a motorcycle that really worked. So successful was it, that it led to the gradual formation of a company that has survived through good times and bad. Through good times and bad, losing and winning back police contracts, as

well as weathering various other vicissitudes, the company has achieved lasting success. In the end, Harley-Davidson came to the ultimate decision of giving its customers what they really wanted, not by providing year-on-year innovations, but by remaining true to the Founders' original concept. The result, as everyone knows, are bikes of mythic status, imbued with a mysterious quality of their own and generating a passion in enthusiasts amounting almost to a love affair. The name has come to personify America and is up there alongside Coca-Cola, Ford and McDonald's. The bikes are described in detail, not only in mechanical terms, but also with glorious photographs, and will be of interest to everyone who loves motorbikes: even aficionados of Japanese and European bikes, who have never even ridden a Harley-Davidson, will be able to recognize the unique marriage of style and nostalgia and the fact that there are no other bikes quite like them.

?Existentialism and the High Tech Drifter II By Miquel Cervantes

DESCRIPTION: An Astronomy Club from Ohio goes on a road trip in search of UFO's, Spirituality, and Personal Relationships. This eclectic group find themselves through mythology, mysticism, and humor. The story travels from the Sycamore Run Lake Park and Campground and Hannah's Pit Stop to campgrounds and other roadside diners. Breakfast at the Truck Stop Buffet in Kansas City, Missouri. Camping in Colorado, New Mexico, Utah, and Arizona. From the Big Bang and Evolution to themes of Sci-Fi, the Occult, and Psychedelics. Ancient Architecture, and Religion to Art, Music, Film, and Video Games. Contemporary Culture, Buddhism, Native Americans, and Neo-Paganism. Everyday working people, rockers, ravers, and rappers. INTRODUCTION: The Project Starlight Astronomy Club meets twice a month from the Spring through Autumn months. They meet at a local park in Southeast Ohio. It's an eclectic group of young and old, Astronomy nerds, students,

working people, spiritualists, and young professionals. The group is led by a COLLEGE PROFESSOR. He is semi-retired Physics professor with a Ph.D. in Philosophy. He is assisted by STUDENT 1, a Mathematics and Computer Science major. A GHOST HUNTER, a Carpenter originally from Kentucky, organizes the events and runs the website. It's the week before the start of summer. And this week the group meets for the celestial event, Jupiter in a Triangle. Jupiter, the moon, and the red star Antares will form a celestial triangle on June, shortly after sunset. Southeast from the waxing gibbous moon positions into a triangle with brilliant Jupiter and Antares, the brightest star in the constellation Scorpius. By the next evening, the moon will be nearly full and will jump to the other side of Jupiter, re-forming the triangle into a brilliant celestial arc. 484 Pages

The urge has found you daydreaming more than once. The urge to define, bend, shape, fabricate, invent, shove, break. To slide your leg over the seat you finally got back from the leather shop. To twist back the throttle grip you wrapped yourself. To lunge into the darkness of an open highway on a creation all your own. More than a motorcycle, this is about your identity. It's about building something as unique as you are. In *The Build*, Robert Hoekman Jr compiles insights from today's best builders to help you plot out your own beautiful beast. Loaded with photos, *The Build* features firsthand advice from the masters of moto design, including John Ryland (Classified Moto), Alan Stulberg (Revival Cycles), Jared Johnson (Holiday Customs), Jarrod DelPrado (DP Customs), and the legendary Max Hazan (Hazan Motorworks). You've seen what can be done. It's time to do it yourself. Get *The Build*.
