Sex pervades our culture, going far beyond the confines of the bedroom into the workplace, the church and the media. Yet despite all the attention and even obsession devoted to sex, human sexuality remains confusing and even foreboding. What, after all, is authentic human sexuality? That is the question [Judith and Jack Balswick](#) set out to answer in this wide-ranging and probing book. Informed by sociology, psychology and theology, the [Balswicks](#) investigate how human sexuality originates both biologically and socially, lay groundwork for a normative Christian interpretation of sexuality, show how authentic sexuality is necessarily grounded in relationships, and explore such forms of "inauthentic sexuality" as sexual harassment, pornography and rape. Since its first publication in 1999, [Authentic Human Sexuality](#) has established itself as a standard text at numerous colleges and seminaries. While maintaining the book's overall structure, this new paper edition offers updated discussions and bibliographies throughout, including a completely new chapter on sexual development throughout the human lifespan and a substantially revised chapter on sexual beings in relationship that incorporates a trinitarian theological perspective. A new generation of students, pastors, psychologists and sociologists engaged in counseling will be indebted to the [Balswicks](#) for this updated study of this endlessly fascinating and perplexing facet of human identity.

Recent technological advances have opened new platforms for learning and teaching. By utilizing virtual spaces, more educational opportunities are created for students who cannot attend a physical classroom environment. Integrating an Awareness of Selfhood and Society into Virtual Learning is a pivotal reference source that discusses the latest scholarly perspectives on creating meaningful learning and sensory engagement in virtual learning spaces, and examines how selfhood is expressed in these environments. Highlighting emerging topics in education, such as gender considerations, leadership development, and situated learning, this book is ideally designed for professionals, practitioners, graduate students, and academics interested in the role of virtual reality in learning contexts.

The year is 2054 and humanity's genetic health is in the hands of the giant de Margham Corporation. Established by [Maelgwen de Margham](#) and her late husband, [Saul](#), the Corporation supplies a universal gene therapy that avoids violation of the Marshall Dictat: the absolute prohibition on making inheritable changes in a person's genetic structure.

A one-volume edition of the three-volume 'Integrative Theology', this text deals with the definition and application of this new and distinctive approach to religious study.

What is "integration"? Christians serving in the psychological professions have long debated the proper way to understand the relationship between "psychology" on the one hand, and "theology" or "Christianity" or "the Christian faith" on the other. This book argues for understanding integration as a matter of personal integrity: it's not about bridging or blending academic disciplines, but about having a coherent vocational identity. What narrative will hold together both our core identity as Christians and our developing identity as clinicians? Peacemaking is proposed as the central motif, based on the Beatitudes of Jesus. Christian therapists who understand themselves as peacemakers will in turn cultivate the clinical virtues of hope, humility, compassion, and Sabbath rest.

Authenticity is a value difficult to define but impossible to ignore in contemporary life. The desire for authentic experience pervades art, music, food, dating, marketing, and politics. Worship is no exception: Vatican documents, megachurch websites, pastors, and liturgy planners all make competing claims to offer the genuine article. But what makes liturgy authentic? What distinguishes real celebration from artificial spectacle, heartfelt prayer from empty ritualism, a living tradition from both stagnation and gimmickry? Can today's Christians perform the liturgy so that it is not a mere performance but a sincere offering of their whole selves? In this book, [Nathaniel Marx](#) argues that the defining characteristic of authentic liturgy is harmony. Authentic liturgy happens when the minds of participants are in tune with their voices. The call for worshippers to harmonize their inward and outward offerings of prayer is discernible in the Bible, in the history of Christian prayer, and in diverse efforts to invigorate communal worship today. Marx's argument unfolds the meaning of this call to authentic worship through a provocative and wide-ranging study incorporating scriptural exegesis, liturgical history, anthropology of ritual, and philosophy of action. He argues that authenticity is not a modern buzzword but an ancient virtue essential to worshiping in a spirit of communion.

This book explores the highly-valued, and often highly-charged, ideal of authenticity in hip-hop — what it is, why it is important, and how it affects the day-to-day life of rap artists. By analyzing the practices, identities, and struggles that shape the lives of rappers in the London scene, the study exposes the strategies and tactics that hip-hop practitioners engage in to negotiate authenticity on an everyday basis. In-depth interviews and fieldwork provide insight into the nature of authenticity in global hip-hop, and the dynamics of cultural appropriation, globalization, marketization, and digitization through a combined set of ethnographic, theoretical, and cultural analysis. Despite growing attention to authenticity in popular music, this book is the first to offer a comprehensive theoretical model explaining the reflexive approaches hip-hop artists adopt to 'live out' authenticity in everyday life. This model will act as a blueprint for new studies in global hip-hop and be generative in other authenticity research, and for other music genres such as punk, rock and roll, country, and blues that share similar issues surrounding contested artist authenticity.

Early in these essays, [Bromberg](#) contemplates how one might engage schizoid detachment within an interpersonal perspective. To his surprise, he finds that the road to the patient's disavowed experiences most frequently passes through the analyst's internal conversation, as multiple configurations of self-other interaction, previously dissociated, are set loose first in the analyst and then played out in the interpersonal field. This insight leads to other discoveries. Beneath the dissociative structures seen in schizoid patients, and also in other personality disorders, [Bromberg](#) regularly finds traumatic experience -- even in patients not otherwise viewed as traumatized. This discovery allows interpersonal notions of psychic structure to emerge in a new light, as [Bromberg](#) arrives at the view that all severe character pathology masks dissociative defenses erected to ward off the internal experience of trauma and to keep the external world at bay to avoid retraumatization. These insights, in turn, open to a new understanding of dissociative processes as intrinsic to the therapeutic process per se. For [Bromberg](#), it is the unanticipated eruption of the patient's relational world, with its push-pull impact on the analyst's effort to maintain a therapeutic stance, that makes possible the deepest and most therapeutically fruitful type of analytic experience. [Bromberg's](#) essays are delightfully unpredictable, as they strive to keep the reader continually abreast of how words can and cannot capture the subtle shifts in relatedness that characterize the clinical process. Indeed, at times [Bromberg's](#) writing seems vividly to recreate the alternating states of mind of the relational analyst at work. Stirringlly evocative in character and radiating clinical wisdom infused with compassion and wit, [Standing in the Spaces](#) is a classic destined to be read and reread by analysts and therapists for decades to come.
