I'm working from the book "Autodesk 3DS Max 2014 Essentials" (Although I'm working with the 2016 version) and I am working on an exercise in which you must UVW Unwrap a soldier character. The

character is all one mesh but is split into
different parts - Body, Helmet, Gloves,
Boots etc - which can be viewed
individually by selecting them as an
element and using "Hide Unselected" from
the visibility ribbon.
