second edition of Black's classic dictionary incorporates many new definitions and additional citations to decided cases, besides being a thorough revision of previous entries. Also included are many Latin and French terms overlooked in the first edition. Medical jurisprudence in particular is enriched, with new definitions for insanity and pathological and criminal insanity. The second edition (1910) is an essential complement to the first edition (1891) as it provides the scholar and student of law important insights into the rapid development of law at the turn of the century. The second edition is also notable for its revamped system of arrangement, with all compound and descriptive terms subsumed under their related main entries. Libraries, students, historians, and practitioners will all benefit from
