Despite harsh conditions and decades of mistreatment, an eclectic ceremonial life flourished amongst Indigenous workers on Wave Hill Station. Constant travel between cattle stations across north-western and central Australia meant that Wave Hill Station became a cross-road of desert and Top End musical styles. As a result, the Gurindji people learnt songs from the Mudburra who came from further east, the Bilinarra from the north, the Nyininy from the west, and the Warlpiri from the south. This book is the first detailed documentation of wajarra, public songs performed by the Gurindji people in response to contemporary events in their community. Featuring five song sets known as Laka, Mintiwarra, Kamul, Juntara, and Freedom Day, it is an exploration of the cultural exchange between Indigenous communities that was fostered by their involvement in the pastoral industry.

The origins of World Press Freedom Day arise from a declaration signed by a group of African journalists who gathered at a UNESCO seminar on "Promoting an Independent and Pluralistic African Media" that was held in Windhoek, Namibia from 29 April to 3 May 1991. Subsequently, painstaking lobbying led to the proclamation of 3 May as an international day on press freedom by the United Nations General Assembly in 1993. This publication aims to commemorate the 20th anniversary of World Press Freedom Day by illuminating the trajectory of this important international event from its origins, following the historic Windhoek Declaration, to the present day. Issues of media freedom, safety of journalists, impunity, gender in the media, pluralism, independence and access to information, as well as the role of the Internet and other 21st century media developments are also covered.

Masters, light body is your divine-human spirit embodied in the substance of love. Light body will evolve its DNA codes and transcriptions exponentially throughout the many New Earths. The New Earth Heart is your transporter star gate, a magnetic imprinter, source code/r, centrifuge, quark stem cell particle, and bioship for New Earth spirit matter, inside embodied love. We offer a simple base line descriptive physics that is relevant for this perceptual moment to switch from the Old Earth matrix blueprints and mass programming to New Earth quantum DNA blueprints. The light body in the Multilight Universe is a blend of the physical and nonphysical into new conscious superconductive light systems. These bio-systems include new adaptive DNA source code templates made of organic essence consciousness. Your new species DNA Soul Heart Core Light allows parallel potential realities at once in your light universe. It is a blend of divine and human. It is a blend between seen and unseen worlds. It is a blend between the atom and newly born quantum light particle. It is a blend of a crystal soul cell, a diamond spirit cell, a multiplasma orb, and liquid light particle cell. It is a new heart stem cell that can regenerate, re-imprint, or repair your entire bio organism right out of your own consciousness. It is a blend of Old Earth atomic and New Earths quark blueprints. It is a blend of linear and multiple applications of time and space. Your creations exist on all dimensions or in all realities at once. It is the prototype of a unique ensouled sovereign organic essence human-angel-god or love master fully embodied as atomic-quantum matter. Science has called it dark matter, that which makes new light universes!

"Astute and consistently surprising critic" (NPR) Olivia Laing investigates the body and its discontents through the great freedom movements of the twentieth century. The body is a source of pleasure and of pain, at once hopelessly vulnerable and radiant with power. In her ambitious, brilliant sixth book, Olivia Laing charts an electrifying course through the long struggle for bodily freedom, using the life of the renegade psychoanalyst Wilhelm Reich to explore gay rights and sexual liberation, feminism, and the civil rights movement. Drawing on her own experiences in protest and alternative medicine, and traveling from Weimar Berlin to the prisons of McCarthy-era America, Laing grapples with some of the most significant and complicated figures of the past century—among them Nina Simone, Christopher Isherwood, Andrea Dworkin, Sigmund Freud, Susan Sontag, and Malcolm X. Despite its many burdens, the body remains a source of power, even in an era as technologized and automated as our own. Arriving at a moment in which basic bodily rights are once again imperiled, *Everybody* is an investigation into the forces arranged against freedom and a celebration of how ordinary human bodies can resist oppression and reshape the world.
