Samson/Daft/ Donnet's Fundamentals of Management is a robust foundation text providing a balance of broad, theoretical content with accessible language for students. This sixth edition features a new author on the team and contains updates to content based on recent research. Along with current management theory and practice, the text integrates coverage of innovation, entrepreneurship, agile workplaces, social media and new technology throughout. The book is rich with experiential exercises, self-assessment activities, challenges and cases for students to engage with, developing multiple skills. Examples within the text are both local and global, with a new focus on a 'skills approach', and each part of the text concludes with a contemporary continuing case study, focussing on car company, Toyota, as it faces managerial challenges and opportunities in the region. The text covers the four key management functions: Planning, Organising, Leading, and Controlling, conveying to students the elements of a manager's working day.

Whether the topic is understanding e-business, six sigma, workplace violence, knowledge workers, Internet job searches, or visionary leadership, Stephen Robbins and David DeCenzo cover it thoroughly and in a way that truly captures the issues facing managers in the twenty-first century. Its not enough just to know about management you have to possess the skills to match! With Robbins and DeCenzos new edition, youll learn so much about the real world of management, including: *Why Amazon.com is revolutionizing the book-selling industry *How SiloCaf, a coffee bean processing plant, uses sophisticated technologically-based controls to
