Call Or Put How I

Where To Download Call Or Put How I Profit Using Binary Options

Call vs Put Option. As previously stated, the difference between a call option and a put option is simple. An investor who buys a call seeks to make a profit when the price of a stock increases.

Call vs Put Options: What's the Difference?

Figure 1. Payoffs for Call options . Puts. A put option gives the buyer the right to sell the underlying asset at the option strike price. The profit the buyer makes on the option depends on the spot price of the underlying asset at the option's expiration. If the spot price is below the strike price, then the put buyer is "in-the-money".
