A: Because of the phase-out of HCFC-123 refrigerant, YORK believes that most existing CFC-11 chillers are not best served with a retrofit, but rather by replacement with an HFC-134a

Online Library Chiller Manual 123

chiller. Due to improvements in product design, efficiencies, and leak-tight construction – as well as being a pro-active response to environmental concerns – HFC-134a technology is a better alternative.
