The relationship between the two countries has been complex, and ...

China-United States relations - Wikipedia

United States of China (simplified Chinese: 中国; traditional Chinese: 中國; pinyin: Zhōngguó Hézhèngguó) is a political concept first devised in the early 1920s by Chen Jiongming of a federalized China modeled closely after the United States of America. Given the political, social and linguistic realities of China in the warlord period, Chen Jiongming believed that a ...

United States of China - Wikipedia

31/07/2020 - Every day we see deepening tensions between the US and China with clashes over a variety of issues. Positions are hardening with advocates of decoupling in the ascendancy in both Washington and Beijing. This US-China strategic rivalry will probably be the dominant organising principle for global politics, regardless who wins the next presidential US elections.

In 2020, China is not only a regional peer of the United States, but a nascent superpower that is determined to overtake the United States economically and militarily by the 2040s. Unlike the former Soviet Union, China is an economic giant, a status that provides it with enormous leverage.

South Korea Is Caught Between China and the United States ...

The China-United States trade war (Chinese: 中美贸易战; pinyin: Zhōngguó wǔ Mào yì zhàn) is an ongoing economic conflict between China and the United States. President Donald Trump in 2018 began setting tariffs and other trade barriers on China with the goal of forcing it to make changes to what the U.S. says are "unfair trade practices". Among those trade practices and their effects ...

China-United States trade war - Wikipedia

The United Nations and the United States rush to South Korea's defense. China, in support of the communist North, retaliates when U.S., UN, and South Korean troops approach the Chinese border. As...

Timeline: U.S. Relations With China 1949-2020

The "Big Four" victors of World War II (Republic of China, the Soviet Union, the United Kingdom, and the United States) were the founding members of the United Nations that drafted the United Nations Charter in 1944, which was ratified on 26 June 1945 by the representatives of 50 countries.

China's current GDP stands as \$16,000 per capita. The figure for America is \$65,000. This is not good news for a nation with a population of over a billion people. China's dependency on the dollar also means it is unable to weaponize its own reserves to hurt the US economy.

~~Why the United States Needs to Rethink its China Strategy~~

WASHINGTON: The United States on Friday urged Japan and South Korea to speak out against China's treatment of minority Muslims and its actions toward Hong Kong and Taiwan, despite their trading relationships with Beijing. The unusually blunt comments directed at close U.S. allies came from Marc Knapper, deputy assistant secretary for Korea and Japan, as Tokyo and Seoul were set to join 13 ...
