This handbook critically examines the three concepts of exclusion, inequality and stigma and their interrelationship in the Indian context. Divided into five parts, the volume deals with the issues of exclusion, inequality, gender discrimination, health and disability, and assault and violence. It discusses important topical themes such as caste and social exclusion in rural labour markets, impact of poverty and unemployment, discrimination in education and literacy, income inequality and financial inclusion, social security of street vendors, women social entrepreneurs, rural-urban digital divide, workplace inequality, women trafficking, acid attacks, inter-caste marriages, honour killings, health care and sanitation, discrimination faced by those with disabilities, and regional disparities in India. The book traces rising socio-economic inequality and discrimination along with the severe lack of access to resources and opportunities, redressal instruments, legal provisions and implementation challenges, while also looking at deep-rooted causes responsible for their persistence in society. With emphasis on affirmative action, systemic mechanisms, and the role of state and citizens in bridging gaps, the

When young Iqbal is sold into slavery at a carpet factory, his arrival changes everything for the other overworked and abused children there. It is Iqbal who explains to them that despite their master's promises, he plans on keeping them as his slaves indefinitely.
