the most beloved groups of birds, including tips on attracting and watching hummingbirds. Stunning photographs of common North American and exotic world species. Explains the details of the tiny hummingbird's amazing twice-yearly migration.

Provides basic information about the biology, life cycles, and behavior of birds, along with brief profiles of each of the eighty bird families in North America.

A surprising and scandalous story of how the interaction within a group of exceptional and uniquely talented characters shaped and changed American thought at the close of the Civil War. Benfey takes the seemingly arbitrary image of the hummingbird and t

One hundred entertaining and informative essays from the popular public radio feature program, *BirdNote*, accompanied by original illustrations throughout--an illuminating volume for bird and nature lovers across North America. Here are the best stories about our avian friends from the public radio show *BirdNote*, each brief essay illuminating the life, habits, or songs of a particular bird. Why do geese fly in a V-formation? Why are worms so good for you--if you're a robin? Which bird calls, "Who cooks for you? Who cooks for you-all?"

From wrens that nest in cactuses to gulls that have a strange red dot on their bills--these digestible and fascinating bird stories are a delightful window to the winged world. A foreword by John W. Fitzpatrick, director of the Cornell Lab of Ornithology, and an introduction by Gordon Orians, professor emeritus of biology at the University of Washington, are also included. Contains web links to the audio version of each story, with bird sounds.

A natural history of birds provides information on more than nine hundred species of birds, including what they eat, where they build their nests, how many eggs they lay, what habitat they choose, when they migrate, and their current conservation status.

The Awakening by Kate Chopin from Coterie Classics All Coterie Classics have been formatted for ereaders and devices and include a bonus link to the free audio book. "She was becoming herself and daily casting aside that fictitious self which we assume like a garment with which to appear before the world." – Kate Chopin, The Awakening The Awakening by Kate Chopin is a masterpiece of early feminist fiction telling the story of a woman who finally decides to decide her own fate.

This book will take you on a flying tour around the world, uncovering some of the finest birds from each of the seven continents in this amazing children's reference book! There are over 10,000 species of birds in the world, and they appear in all shapes, sizes, and colors. Here you will find the most amazing facts about seventy-five different species and discover the variety and splendor of the bird world. Children will enjoy learning about all the strange and wonderful birds that exist on our planet! Full of beautiful and colorful illustrations, this book is perfect for budding birders!

Children love stories. Bring the magic of good storytelling into your classroom with Classic Tales, and they'll love their English lessons too. 'Let's have a race', the hummingbird said to the heron. But who was the winner?

Nobel Prize winner Yasunari Kawabata felt the essence of his art was to be found not in his longer works but in a series of short-stories which he called Palm-of-the-hand-stories - written over the span of his career. In them we find loneliness, love and the passage of time, demonstrating the range and complexity of a true master.
