6 Preface Sir John V. Dacie, MD, FRCPath, FRS 19122005 S. Mitchell Lewis, BSc, MD, DCP(London), FRCPath, FIBMS 1924 As a 61 year tribute, this edition is dedicated to Sir John Dacie and to Mitchell Lewis. Sir John was one of the pre-eminent British haematologists of the second half of the 20th century; he established haematology as a distinct discipline and his books on haemolytic anaemia have become modern clas- sics.

causes of error, and the interpretation and clinical significance of the results.

An updated, essential guide for the laboratory diagnosis of haemoglobin disorders This revised and updated third edition of Haemoglobinopathy Diagnosis offers a comprehensive review of the practical information needed for an understanding of the laboratory diagnosis of haemoglobin disorders. Written in a concise and approachable format, the book includes an overview of clinical and laboratory features of these disorders. The author focuses on the selection, performance, and interpretation of the tests that are offered by the majority of diagnostic laboratories. The book also explains when more specialist tests are required and explores what specialist referral centres will accomplish. The information on diagnosis is set in a clinical context. The third edition is written by a leading haematologist with a reputation for educational excellence. Designed as a practical resource, the book is filled with illustrative examples and helpful questions that can aide in the retention of the material presented. Additionally, the author includes information on the most recent advances in the field. This important text:

- Contains a practical, highly illustrated, approach to the laboratory diagnosis of haemoglobin disorders
- Includes “test-
