Im Islam besteht ein Rechtssystem, das göttlichen Ursprungs ist und an dem der Mensch nach Ansicht konservativer Religionsinterpreten nichts ändern darf. In der westlichen Welt richtet man sich nach einem liberalen, vom Geist der Aufklärung getragenen Wertesystem, das den Einzelmenschen im Mittelpunkt sieht. Die Konfliktzonen, die sich aus diesen Spannungsfeldern ergeben, kommen am deutlichsten im Kriminalrecht hervor. In diesem Buch werden die verschiedenen Problembereiche von beiden Seiten und an Hand der aktuellsten Entwicklungen untersucht.

Revised edition of the best-selling memoir that has been read by over a million people worldwide with translations in 29 languages. After too many years of unfulfilling work, Bronnie Ware began searching for a job with heart. Despite having no formal qualifications or previous experience in the field, she found herself working in palliative care. During the time she spent tending to those who were dying, Bronnie's life was transformed. Later, she wrote an Internet blog post, outlining the most common regrets that the people she had cared for had expressed. The post gained so much momentum that it was viewed by more than three million readers worldwide in its first year. At the request of many, Bronnie subsequently wrote a book, *The Top Five Regrets of the Dying*, to share her story. Bronnie has had a colourful and diverse life. By applying the lessons of those nearing their death to her own life, she developed an understanding that it is possible for everyone, if we make the right choices, to die with peace of mind. In this revised edition of the best-selling memoir that has been read by over a million people worldwide, with translations in 29 languages, Bronnie expresses how significant these regrets are and how we can positively address these issues while we still have the time. *The Top Five Regrets of the Dying* gives hope for a better world. It is a courageous, life-changing book that will leave you feeling more compassionate and inspired to live the life you are truly here to live.

The author highlights the three main aspects of Shi'a Islam: its historical development, especially the history of the Imams; the rituals, including flagellation and passion plays; and the rule of the mullahs, known as the "government of experts." Shi'ism is as old as Islam. It began as an exclusively Arab political issue of succession to Muhammad, and was later embraced by the Iranians. At the core of Shi'i religious practice are rituals of mourning and atonement.--Publisher description.

This important new book covers the time between Paul's conversion in Damascus and his arrival in Antioch, set against a detailed background of the early Christian world, the church in Damascus to which Paul was introduced on his conversion, the methods of the first Christian mission, the situation in Arabia during Paul's first mission, the mission territory in Tarsus and Cilicia to which he then moved, and the nature of the church in Antioch. Martin Hengel once more challenges the overly skeptical assessments of the New Testament record and provides powerful support for his position on Paul.

Discuss the Islamic Scriptures that form the basis for its political language, looks at the changes in modern Islamic politics, and analyzes the transformation of political terms.
