The following is an excerpt from the book Digital Forensics Processing and Procedures written by David Watson and Andrew Jones and published by Syngress. In this section from chapter 3, learn about the areas that must be considered when setting up a forensic laboratory. SETTING UP THE FORENSIC LABORATORY

~~Digital Forensics Processing and Procedures~~

Digital Forensics Processing and Procedures is divided into three main sections. The first deals with the setting up of your forensics lab – not the hardware and tools, but covering such areas as management systems, risk assessment and quality assurance. Yes, there's a section on the IT infrastructure, but here the emphasis is on how it's managed
