A retelling of the classical Greek myth of Theseus and Ariadne, in simplified language for new readers. Includes activities and exercises to enhance reading comprehension skills and improve vocabulary.

This book presents forty (40) plants (herbs and other plants) were important for culinary, medicinal, and cult purposes in classical antiquity.

In this irresistible #1 New York Times best-selling novel, Anne Tyler explores the slippery alchemy of attracting opposites, and the struggle to rebuild one's life after unspeakable tragedy. Travel writer Macon Leary hates travel, adventure, surprises, and anything outside of his routine. Immobilized by grief, Macon is becoming increasingly prickly and alone, anchored by his solitude and an unwillingness to compromise his creature comforts. Then he meets Muriel, an eccentric dog trainer too optimistic to let Macon disappear into himself. Despite Macon's best efforts to remain insulated, Muriel up-ends his solitary, systemized life, catapulting him into the center of a messy, beautiful love story he never imagined. A fresh and timeless tale of unexpected bliss, *The Accidental Tourist* showcases Tyler's talents for making characters—and their relationships—feel both real and magical. “Incandescent, heartbreaking, exhilarating...One cannot reasonably expect fiction to be much better than this.” —The Washington Post Look for *Clock Dance*, the charming new novel from Anne Tyler, available now.

Word count 10,150 Suitable for young readers

For thousand of years the dead body of the young king Tutankhamun slept under the sands of Egypt. Then, in the autumn of 1922, Howard Carter and his friends find and open his tomb door. These are exciting times, and Carter's young helper Tariq tells the story in his diary. But soon people begin to die. Who or what is the killer? Is Tutankhamun angry with them for opening his tomb? And who is the beautiful French girl with the face of Tutankhamun's long-dead wife?

After her cousin Zee arrives from England, thirteen-year-old Charlotte and he must set out to save humankind from denizens of the underworld, Nightmares, Death, Pain, and a really nasty guy named Phil.

Every day, billions of photographs, news stories, songs, X-rays, TV shows, phone calls, and emails are being scattered around the world as sequences of zeroes and ones: bits. We can't escape this explosion of digital information and few of us want to-the benefits are too seductive. The technology has enabled unprecedented innovation, collaboration, entertainment, and democratic participation. But the same engineering marvels are shattering centuries-old assumptions about privacy, identity, free expression, and personal control as more and more details of our lives are captured as digital data. Can you control who sees all that personal information about you? Can email be truly confidential, when nothing seems to be private? Shouldn't the Internet be censored the way radio and TV are? is it really a federal crime to download music? When you use Google or Yahoo! to search for something, how do they decide which sites to show you? Do you still have free speech in the digital world? Do you have a voice in shaping government or corporate policies about any of this? Blown to Bits offers provocative answers to these questions and tells intriguing real-life stories. This book is a wake-up call To The human consequences of the digital explosion.
