The Matter - Properties and Changes chapter of this Glencoe Chemistry companion course helps students learn the essential chemistry lessons of matter's physical and chemical properties.

"Chemistry is so crucial to an understanding of medicine and biology, environmental science, and many areas of engineering and industrial processing that it has become a requirement for an increasing number of academic majors. Furthermore, chemical principles lie at the core of some of the key societal issues we face in the 21st century-dealing with climate change, finding new energy options, and supplying nutrition and curing disease on an ever more populated planet. The ninth edition of Chemistry: The Molecular Nature of Matter and Change maintains its standard-setting position among general chemistry textbooks by evolving further to meet the needs of professor and student. The text still contains the most accurate molecular illustrations, consistent step-by-step worked problems, and an extensive collection of end-of-chapter problems. And changes throughout this edition make the text more readable and succinct, the artwork more teachable and modern, and the design more focused and inviting. The three hallmarks that have made this text a market leader are now demonstrated in its pages more clearly than ever"--

Based on the Cornell note-taking format, this resource incorporates writing into the learning process. Directly linked to the student text, this notebook provides a systematic approach to learning science by encouraging students to engage by summarizing and synthesizing abstract concepts in their own words

Meets All California State Standards! Glencoe California Chemistry: Matter and Change combines the elements students need to succeed! A comprehensive course of study designed for a first-year high school chemistry curriculum, this program incorporates features for strong math support and problem-solving development. Promote strong inquiry learning with a variety of in-text lab options, including Discovery Labs, MiniLabs, Problem-Solving Labs, and ChemLabs (large- and small-scale), in addition to Forensics, Probeware, Small-Scale, and Lab Manuals. Provide simple, inexpensive, safe chemistry activities with Try at Home labs. Unique to Glencoe, these labs are safe enough to be completed outside the classroom and are referenced in the appropriate chapters!
