In the early twentieth century, a young Chinese boy joins his father in San Francisco and helps him realize his dream of making a flying machine.

Percy Jackson is a good kid, but he can't seem to focus on his schoolwork or control his temper. And lately, being away at boarding school is only getting worse-Percy could have sworn his pre-algebra teacher turned into a monster and tried to kill him.

A KID’S GUIDE TO THE OCEAN "Can you imagine a world without fish? It's not as crazy as it sounds. But if we keep doing things the way we've been doing things, fish could become extinct within fifty years. So let's change the way we do things!" World Without Fish is the uniquely illustrated narrative nonfiction account—for kids—of what is happening to the world’s oceans and what they can do about it. Written by Mark Kurlansky, author of Cod, Salt, The Big Oyster, and many other books, World Without Fish has been praised as “urgent” (Publishers Weekly) and “a wonderfully fast-paced and engaging primer on the key questions surrounding fish and the sea” (Paul Greenberg, author of Four Fish). It has also been included in the New York State Expeditionary Learning English Language Arts Curriculum. Written by a master storyteller, World Without Fish connects all the dots—biology, economics, evolution, politics, climate, history, culture, food, and nutrition—in a way that kids can really understand. It describes how the fish we most commonly eat, including tuna, salmon, cod, swordfish—even anchovies— could disappear within fifty years, and the domino effect it would have: the oceans teeming with jellyfish and turning pinkish orange from algal blooms, the seabirds disappearing, then reptiles, then mammals. It describes the back-and-forth dynamic of fishermen, who are the original environmentalists, and scientists, who not that long ago considered fish an endless resource. It explains why fish farming is not the answer—and why sustainable fishing is, and how to help return the oceans to their natural ecological balance. Interwoven with the book is a twelve-page graphic novel. Each beautifully illustrated chapter opener links to the next to form a larger fictional story that perfectly complements the text.

"It's 1932, and twelve-year-old Cal Black and his pop have been riding the rails for a year after losing their farm in the Great Depression. Cal likes being a "knight of the road" with Pop, even if they're broke. But then Pop has to go to Washington, D.C.--and Cal can't go with him. So Pop tells Cal something he never knew before: He's a Creek Indian, which means Cal is, too. And Pop has decided to send Cal to Challagi Indian School, a government boarding school for Native Americans in Oklahoma. At Challagi, the other Creek boys quickly take Cal under their wing. Even in the harsh, miserable conditions of the school, Cal begins to learn his people's history and heritage, language, and customs. And most of all, he learns how to find strength in a group of friends who have only one another"--Page [4] of cover.

Slowly Jack learns the pleasures of writing poetry as Miss Stretchberry encourages him to tell his own story through verse. What emerges is a moving and memorable story about a boy and his dog and his growing passion for poetry.

Every raindrop, lake, underground river and glacier is part of a single global well. Discover the many ways water is used around the world, and what kids can do to protect it.

The author describes how he grew up as a Chinese American in San Francisco and how he came to use his writing to celebrate his family and his ethnic heritage.

When the Sudanese civil war reaches his village in 1985, 11-year-old Salva becomes separated from his family and must walk with other Dinka tribe members through southern Sudan, Ethiopia and Kenya in search of safe haven. Based on the life of Salva Dut, who, after emigrating to America in 1996, began a project to dig water wells in Sudan. By a Newbery Medal-winning author.

Explicit instruction is systematic, direct, engaging, and success oriented--and has been shown to promote achievement for all students. This highly practical and accessible resource gives special and general education teachers the tools to implement explicit instruction in any grade level or content area. The authors are leading experts who provide clear guidelines for identifying key concepts, skills, and routines to teach; designing and delivering effective lessons; and giving students opportunities to practice and master new material. Sample lesson plans, lively examples, and reproducible checklists and teacher worksheets enhance the utility of the volume. Purchasers can also download and print the reproducible materials for repeated use. Video clips demonstrating the approach in real classrooms are available at the authors' website: www.explicitinstruction.org. See also related DVDs from Anita Archer: Golden Principles of Explicit Instruction; Active Participation: Getting Them All Engaged, Elementary Level; and Active Participation: Getting Them All Engaged, Secondary Level

Offers the thoughts of an eleven-year-old boy who, through a collection of poetry and illustrations, ponders the many things he sees and experiences in the world around him.
