This book addresses a gap in the academic and professional literature in the area of criminal justice social work. This compilation explores the scope of responsibilities undertaken by social workers in the field of criminal law in India when dealing with clients who are either offenders or victims of crime. It provides an in-depth understanding of the socio-structural, legal and practical challenges faced by Indian

criminal justice social workers. The book encourages social work professionals and students to consider three major areas: encouraging education and training in this subject; protecting the human rights of offenders and victims of crime; and addressing mental illness within the criminal justice system. It hopes to demystify social work in the area of criminal justice, particularly because of the stigma attached to it, given the potentially coercive enforcement of criminal law alongside the traditional ethos of social work being primarily about 'caring', 'empathy' and 'empowerment'.

This volume is a definitive manual for students and practitioners involved in learning and developing essential theories and models for fieldwork practicum in social work education. It addresses various functional issues in field practicum, delineates proper guidelines for students and supervisors, discusses criteria of supervision and evaluation, and explores the concerns facing South Asian field practitioners. The volume focuses on traditional and non-traditional components and aspects of fieldwork and training, such as:

- The value and use of educational camps and skill development workshops.
- The contemporary field-level needs and strategies in social work practicum.
- Formulating alternative practice theories that will allow social work practitioners to respond to the critical social problems unique to India and South Asia.

The book provides multiple frameworks for teaching and learning fieldwork that integrate theory and practice and create an environment where students can develop intervention strategies using their knowledge, skills, and techniques. The volume will be indispensable reading for undergraduate and post-graduate students of social work. It will also be useful for scholars of sociology, anthropology, and development studies, and practitioners engaged in various non-governmental and international organizations.

For twenty-five years, *The Social Work Interview* has been the textbook of choice in social work and other human service courses, as well as an essential professional resource for practitioners. This new edition, the first in seven years, is thoroughly updated-revised, expanded, and reorganized for more thorough coverage and for more effective teaching and learning. New to this edition: Thoroughly reorganized chapters and sections for greater coherence and clarity More extensive literature review Greater emphasis on the process of communication and its role in interviewing New or greatly expanded coverage of interviewing short-term, involuntary, and other special clients Expanded coverage of techniques for bridging racial and ethnic differences Greater coverage of interviewer/interviewee differences related to class, race, and gender Chapter-end summaries throughout.

Demonstrates the positive outcomes of integrating familial, social, and cultural factors in social work.

Social workers are required to communicate in writing for a range of purposes and audiences. The new edition of this best-selling book aims to raise the profile of writing skills in social work practice. It encourages the development of writing techniques which will stand the reader in good stead throughout their professional career. Examples of the types of writing covered include: - Case-notes - Reports - Proposals - Literature reviews - Journal articles - Funding applications. Reflective exercises, hot tips for effective writing and further reading are included in each chapter. The book is also linked to the professional standards that structure training, practice and continuing professional development. It will be an essential study guide for all students, practitioners and managers in social work settings.

Updating long-standing controversies such as the conflict between professionalism and bureaucracy, and addressing the question of social work autonomy within organizations, this book discusses how dwindling resources have forced social work practice to become more results-oriented in a limited time frame.

This book presents a broad view of contemporary social work, exploring its roots and its possible future. It dispels myths surrounding social work, addresses media debates, and offers a balanced account of what social workers do. The book argues for a social work that is partisan in support of social justice.
