Highway 12 is undoubtedly one of not only America's but the world's most scenic highways. From its intersection on the west with Highway 89 south of Panguitch, Utah, it runs up through Red Canyon onto the Paunsagunt Plateau and across Bryce Canyon National Park. It then drops into the Paria River Valley, passes through several tiny villages, crosses some extraordinary (for anywhere but this region) badlands, and descends the Escalante River into Potato Valley. While a driver may justifiably feel she has seen some scenery by that point, the highway is just getting started, for in the next stretch, it crosses a labyrinth of multicolored sandstone humps and corridors, climaxed by a narrow hogback with steep slickrock drops to each side, all within Grand Staircase-Escalante National Monument. Reaching the oasis of Boulder within this desert of rock, the road then climbs across the flank of the Aquarius Plateau, providing spectacular vistas and terminating at the gateway to Capitol Reef National Park. Along the way side roads and trails access the vast wilderness of the Paria and Escalante Rivers and the high plateaus they drain. Congress acknowledged the unequaled splendor of Highway 12 by designating it one of a handful of All-American Roads. To travel with Christian Probasco this road and its spurs, which lead deep into some of the wildest, most broken-up and stunning landscapes anywhere, can put a unique twist on an already singular experience. He knows the region as well as anyone and brings an original, edgy, youthful view to it. His opinions and his language may challenge you. His approaches to and perspectives on the land may sometimes surprise you. His understanding of the area's history and its people will likely teach you a thing or two.

For undergraduate and graduate Principles of Management courses. This text connects theory with practice, incorporating the latest research findings to make management relevant and exciting to aspiring managers.

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens

of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

For many years, author Gayle Selisch and her husband ran Middle Fork Rafting Tours, one of the United States' premier whitewater rafting trips. While out on these tours, they used these wonderful recipes, trying, testing, and enjoying them on Idaho's Middle Fork of the Salmon River. These recipes highlight the use of the aluminum Dutch oven and are designed to be made primarily over charcoal, but they can also be cooked at home, in any oven. The recipes include breakfast dishes, unique lunch salads, appetizers, dinner entrees, side dishes, and desserts. River history and humor are incorporated among the recipes to add to its charm. From yummy pecan sticky buns to warm beans with herbs, from tomatoes and goat cheese to peppered pork tenderloin with blueberry sauce, there are wonderful, tasty dishes for everyone. The proceeds from the sale of this cookbook will benefit two important nonprofit organizations. The first beneficiary is the Swiftsure Therapeutic Equestrian Center located in Bellevue, Idaho. Therapeutic riding improves the lives of disabled persons. The second beneficiary is the Bald Mountain Rescue Fund, an Idaho organization that assists residents in times of catastrophic injuries.
