This is the ninth edition of the annual report, prepared by the World Bank's Development Prospects Group. The series provides an annual assessment of global economic prospects as they affect developing countries and analyzes the links between developing countries and the world economy, particularly in the areas of trade, foreign direct investment, and other capital flows. In addition, each Global Economic Prospects addresses a few important topics, such as the expansion of global production and the costs of making the transition to a more open economy, as discussed in last year's report. Global Economic Prospects is part of an ongoing attempt to understand the dynamics of globalization, including its promises and its potential pitfalls. Includes statistical section of global economic indicators.
