Think back to a time when paramedics didn't exist. When "drivers" simply brought injured patients to the hospital. When the EMS industry was in its infancy. A time before Nancy Caroline. Dr. Caroline's work transformed EMS and the entire paramedic field. She created the first national standard curriculum for paramedic training in the United States. She also wrote the first paramedic textbook: *Emergency Care in the Streets*. The impact that Dr. Caroline had on EMS and health care spanned across the U.S. and abroad. From establishing EMS systems to training paramedics, to providing better nourishment and health care for orphans, her work had a profound impact on humanity.

inspectors need to know how to interpret and apply national and local codes and standards in the office and in the field. Fire Inspector: Principles and Practice is designed to prepare fire inspectors to ensure the highest standards of fire and life safety in their communities. The National Fire Protection Association (NFPA) and the International Association of Fire Chiefs (IAFC) are pleased to bring you Fire Inspector: Principles and Practice, a modern integrated teaching and learning system for the fire inspector. This textbook meets and exceeds the job performance requirements for level I and II fire inspectors from Chapters 4 and 5 of NFPA 1031, Standard for Professional Qualifications for Fire Inspector

and Plan Examiner, 2009 Edition. Fire Inspector: Principles and Practice is built on a solid foundation of the basics: building construction, fire growth, and types of occupancies. This fundamental knowledge is presented in a concise, understandable writing style that is easy to digest and recall. The solid foundation of fire and building knowledge then branches out to show the fire inspector how abstract concepts and codes will be concretely applied on a daily basis. This is the text that truly prepares fire inspectors for the real world.

Eighth Edition meets and exceeds the paramedic National EMS Education Standards and reflects the National Model EMS Clinical Guidelines (NASEMSO), the National Registry Skill Sheets and Psychomotor Competency Portfolio, and Prehospital Trauma Life Support, Eighth Edition, from NAEMT and American College of Surgeons' Committee on Trauma. Where applicable, the authors and editors followed additional authoritative sources, such as national stroke guidelines. Last but not least, the Eighth Edition thoroughly addresses the 2015 ECC and CPR guidelines published by the American Heart Association. These updates went beyond a compression rate or depth change; the text has been

completely updated to reflect all of the Guideline changes. Strong Application to Real-World EMS Students who are studying to become paramedics are focused on helping the sick and injured. They need to know why information is important to learn. Through evolving patient case studies in each chapter, the Eighth Edition gives students a genuine context for the application of knowledge. This approach makes it clear how all of this new information will be used to help patients in the field. Opportunities to apply knowledge equip students to ultimately become better providers. Progressive case studies are followed by a comprehensive summary that answers the critical

thinking questions raised throughout the case. The You are the Paramedic cases conclude with a Patient Care Report, showing the student exactly how the presented case would be documented. New to This Edition! Based on feedback from program directors and educators around the country, we added two new chapters to the Eighth Edition: Medical Terminology. Medical Terminology was previously addressed in the Documentation chapter, but educators strongly preferred that we dedicate a standalone chapter to this important topic. Career Development. Recognizing that the U.S. health care system, and the role of the paramedic in it, are rapidly evolving, we've added
