Elimination - Eliminate manual lifting of kerbs and flags at the design stage. Total Mechanical - ensure kerbs and flags are always handled and laid mechanically (e.g. using vacuum devices, mechanical grabs, etc). This is the preferred solution for new build and refurbishment work.

Handling kerbs and flags - Interpave

The law around manual handling doesn't specify a maximum weight that can be lifted, but there are general guidelines that employers and staff should take into consideration. According to Workplace Safety Advice, it's recommended that men don't lift anything heavier than 25kg, and women shouldn't lift items that are heavier than 16kg. Although, there are other factors that need to be taken into account, such as how high something needs to be lifted.
