This film was one of 1957's top grossers mainly due to the fact that in those years the public wanted exotic European location shooting and the film certainly does a good job of showing Greece and Sophia Loren who is ravishing. The story is a thriller. Alan Ladd plays a archaeologist , Sophia a poor sponge diver and Clifton Webb an unscrupulous collector of art. The plot is not really that ...

Alienation, shame, and self-hatred were the substance of his youth, and when he left home in his teens he didn't fare much better. Fueled by confusion and pain, he entered the alluring but toxic world of male hustling, dancing, and eventually signed with Vivid Entertainment to act in, produce, and direct some of the company's most popular gay porn videos. Now Dolph bares all in a revealing memoir that rips the glamour off the video industry as effectively as it unearths the enduring pain of growing up gay in America.

First published between 1982 and 1983, this series examines the peculiarly American cultural context out of which the nation's literature has developed. Covering the years from 1620 to 1830, this first volume of American Literature in Context examines a range of texts from the writings of the Puritan settlers through the declaration of Independence to the novels of Fenimore Cooper. In doing so, it shows how early Americans thought about their growing nation, their arguments for immigration, for political and cultural independence, and the doubts they experienced in this

a springboard for wider discussion and analysis. Each analysis demonstrates how students can move into and then from the pages of literature to a consideration of the whole text, and thence to an understanding of the author's oeuvre and of the cultural moment in which he or she lived and wrote. This set will be a valuable resource for students of American literature and American studies.

Origins in the early nineteenth century to the eve of World War II. It examines the historical novel's connections with Enlightenment and Romantic theories of history; with the rise of literary regionalism; with the ambitions of Romantic writers to revive the epic and romance; with changing conceptions of gender roles; and with the authors' troubled responses to the great revolutionary and imperialistic conflicts of the modern era.
