PHYSICS FOR SCIENTISTS AND ENGINEERS reveals the beauty and simplicity of physics while highlighting its essential role in other disciplines, from engineering to medicine. This proven text features the Serway hallmarks of concise writing, carefully thought-out problem sets, world class worked examples, and leading-edge educational pedagogy. With the Seventh Edition, authors Raymond A. Serway and John W. Jewett, Jr. build upon this strong foundation by carrying that high standard to the book's carefully integrated technology package, perfectly tailored to support any course design. All end-of-chapter problems, worked examples, and quick quizzes are available in Enhanced WebAssign (with hints and feedback formulated to foster student learning), allowing instructors to securely create and administer homework assignments in an interactive online environment. For instructors utilizing classroom response technology, a complete suite of PowerPoint-formatted questions designed to support all levels of users, from amateur through advanced, is available to support the clicker software of your choosing. The result is the most complete course solution you will find; and one that is scalable to meet your and your students' unique needs. Building upon Serway and Jewetta s solid foundation in the modern classic text, Physics for Scientists and Engineers, this first Asia-Pacific edition of Physics is a practical and engaging introduction to Physics. Using international and local case studies and worked examples to add to the concise language and high quality artwork, this new regional edition further engages students and highlights the relevance of this discipline to their learning and lives.

As a market leader, PHYSICS FOR SCIENTISTS AND ENGINEERS is one of the most powerful brands in the physics market. However, rather than resting on that reputation, the new edition of this text marks a significant advance in the already excellent quality of the book. While preserving concise language, state of the art educational pedagogy, and top-notch worked examples, the Eighth Edition features a unified art design as well as streamlined and carefully reorganized problem sets that enhance the thoughtful instruction for which Raymond A. Serway and John W. Jewett, Jr. earned their reputations. Likewise, PHYSICS FOR SCIENTISTS AND ENGINEERS will continue to accompany Enhanced WebAssign in the most integrated text-technology offering available today. In an environment where new Physics texts have appeared with challenging and novel means to teach students, this book exceeds all modern standards of education from the most solid foundation in the Physics market today.
