I'm a writer and avid Reacher reader, and I looked forward to learning about Lee Child's writing process in "Reacher Said Nothing," Andy Martin's solipsistic "meta book" about the writing of "Make Me," Child's 20th novel in the Reacher series. "Reacher Said Nothing" is not a redux of "On Writing" by Stephen King, which offered insights and guidance for writers based on King's real-world experience.

Lee Child has a literary failing — or device, I can't tell which — that nobody else can or should get away with. It goes like this: "Sixteen people have been killed in a particularly horrible way!" REACHER SAID NOTHING is a most gratifying read that will appeal to both fans of Lee Child's Jack Reacher novels and fellow writers, successful and aspiring. Interestingly, the author Dr Andy Martin has produced a book about writing that reads like a thriller, a very cool trick given the actual business of sitting down to write a novel isn't the most exciting of pastimes.

So in Lee Child's electrifying new novel, Reacher—a man with no fear, no illusions, and nothing to lose—goes to war against a town that not only wants him gone, it want. Two lonely towns in Colorado: Hope and Despair. Between them, twelve miles of empty road. Jack Reacher never turns back. It's not in his nature.
