Sharpening compound is a gritty substance that is applied to the blades and sharpens the beveled edges of the blades as they scrape against each other. To sharpen your tool with a lapping kit, attach the handle to the driving gear of your reel mower and use a paint brush to apply the sharpening compound to all of the blades.

How to backlap sharpen a Gardena Reel Mower - YouTube

Give your mower a new life. This product works wonders on almost any brand of reel mower. You just need to be aware that you need to re-adjust the blade clearance while sharpening, and after you are done, as the cutting surface will obviously get ground in the process. Be careful when removing the E ring as it can fly off and land somewhere where you will never find it again.
