Whether it's in-house or freelance, finding the right software engineer takes some work, and it's even more difficult if you're unsure of what to ask. Software developers are technical people, so most interviewers tend to jump into the technical interview right away, but there are plenty of personality and ethics questions that you can ask to ensure the one you hire is the best fit for your ...

**Software Engineer Interview Questions to Hire the Right...**

"A great software engineer has a healthy balance between perfectionism and pragmatism. Too often engineers want their code to be perfect, while losing sight of the overall goals of the project. A great programmer also learns not to fall in love with their own code, to keep a healthy skepticism until it's been thoroughly tested, making sure it is the right choice for the project at hand.
