FISCAM presents a methodology for performing info. system (IS) control audits of governmental entities in accordance with professional standards. FISCAM is designed to be used on financial and performance audits and attestation engagements. The methodology in the FISCAM incorp. the following: (1) A top-down, risk-based approach that considers materiality and significance in determining audit procedures; (2) Evaluation of entitywide controls and their effect on audit risk; (3) Evaluation of general controls and their pervasive impact on bus. process controls; (4) Evaluation of security mgmt. at all levels; (5) Control hierarchy to evaluate IS control weaknesses; (6) Groupings of control categories consistent with the nature of the risk. Illus.

Includes Part 1, Number 2: Books and Pamphlets, Including Serials and Contributions to Periodicals (July - December)

Auditing & Assurance Services, First South African Edition, combines a genuine international perspective with South African examples and coverage of the landmark changes within the South African auditing environment. Key features include: South African content - The authors weave regionally specific content and examples throughout the text and cover the changes to the regulatory and corporate governance environment in South Africa. International perspective - Professional practice and regulation all over the world is driven by international events and initiatives. The clarified ISAs are fully integrated into the chapters with international real-world cases used to illustrate concepts and application. Systematic approach - The text gives students a deep understanding and working knowledge of fundamental auditing concepts and how they are applied. The core foundation of the text and its focus on critical judgements and decision-making processes prepare students for today's complex and dynamic audit environment. Student engagement - A student-friendly writing style and a variety of real-life examples make the text easily accessible. Each chapter ends with a comprehensive variety of materials to apply and test students' understanding of acquired knowledge.

This book constitutes the proceedings of the 15th International Conference on Advanced Data Mining and Applications, ADMA 2019, held in Dalian, China in November 2019. The 39 full papers presented together with 26 short papers and 2 demo papers were carefully reviewed and selected from 170 submissions. The papers were organized in topical sections named: Data Mining Foundations; Classification and Clustering Methods; Recommender Systems; Social Network and Social Media; Behavior Modeling and User Profiling; Text and Multimedia Mining; Spatial-Temporal Data; Medical and Healthcare Data/Decision Analytics; and Other Applications.
