The Mote Amp's damage output is pitiful and it has several inherent disadvantages that make it significantly less useful compared to any Amp you can craft yourself. It's energy inefficient, has a terrible range of only 20 meters, has the worst fire rate of all Amps, can't inflict any status effects, and has a horrible critical multiplier of only 1.5.

Best Warframe Amp Guide (Builds for 2020)

Trinity Builds Guide. " Trinity is a must for any high-stakes mission. She'll save your life, Tenno! " This Lotus quote is a perfect description for everything Trinity is supposed to be. She was one of the first Warframes ever released and since then she has been the best support Warframe in the game.
