This collection examines education in the light of a politics of becoming. It takes a non-hierarchical transdisciplinary approach, challenging the macropolitics of pre-established governmental and economic agendas for education. Drawing on the philosophy of Gilles Deleuze and Felix Guattari, the contributors consider questions such as how education might engage a politics of becoming, and how education and becoming function in a society of control. Since Deleuze and Guattari contend that a society is defined by its becomings, its transformations, this collection asks how education, itself a process in becoming, may contribute "collective creations" to a society in continual flux. The chapters bring theory and praxis together, deploying power, affect, cartography, space, relationality, assemblage and multiple literacies in order to experiment with music, art, language, teacher education, curriculum and policy studies. This collection is an innovative resource, creating an encounter with the macropolitics of education, and altering teaching, learning, evaluation and curriculum. This book was originally published as a special issue of Discourse: Studies in the Cultural Politics of Education.

Fae Fire It is Kaye Brand's power to wield. But outcast from her kind, she's been selling herself to the highest bidder-- – money for her survival in exchange for a magic glimpse into the flames of the future. Yet he has no choice but to hire her to uncover the secrets of his sworn enemy and her former fiancé, Ferrol Grey. Magekind War is inevitable between the defenders of the Order and the mage houses who threaten to engulf the world in Shadow. For Jack, mage-born Kaye is off limits, no matter how hot the impossible attraction between them. But in the coming darkness, beset by danger and desire, everything is about to change . . . "Powerful and fast-paced. . . a riveting read." --Nina Bangs on Shadow Bound "Beautiful, evocative. . .gripping. A dark and scrumptious treat!" --Alexandra Ivy on Shadowman "Fans of dark drama will be captivated by this intense new series." --RT Book Reviews

Rape is one of the oldest crimes, yet in some ways it is the least understood. Criminal law classifies rape as a crime against the person along with murder, robbery, and battery. But in at least one respect rape is unique--with few exceptions its perpetrators are male and its victims are female. The gendered nature of rape raises questions of equality and fairness as well as about the scope of individual rights to autonomy, privacy, security, and bodily integrity. Rape is therefore an important subject for political and social philosophy as well as for ethics, feminist philosophy, and the philosophy of law. This collection of original essays by leading philosophers investigates the philosophical dimensions of rape in all of its manifestations: act, crime, practice, and institution. The essays examine such issues as the nature of rape; the wrongfulness and harmfulness of rape; the relation of rape to racism, sexism, classism, and other forms of oppression; and the legitimacy of various rape-law doctrines (such as the corroboration requirement, the marital-rape exemption, and the reasonable-belief defense). Each contributor advances a novel argument and seeks to disentangle the conceptual, evaluative, and empirical issues that arise in connection with the crime. Editor Keith Burgess-Jackson provides a substantive introduction, a history of rape law, two extensive bibliographies, and a detailed index to round out this major addition to a much-needed philosophical discussion of rape. A Most Detestable Crime is among the first philosophical anthologies devoted exclusively to the subject of rape--as complex and interesting intellectually as it is pervasive and disturbing socially. It is an essential reference work not only for legal and feminist philosophers, but for feminist scholars and practitioners in every field, including law, medicine, social work, and counseling. This volume will also be of interest to social, political, and legal theorists of every ideological and methodological persuasion.

Elle Masters is over dating. It used to be fun: the drama, the angst, the exhilarating beginnings, the bittersweet middles, the blowout endings. Then the tears, hangovers, rebounds, and another addition to the shoebox of memories in her closet. Now Elle can't remember the last time a guy made his way into her box. When her friends Rachel and Valerie insist she snap out of her post-breakup funk with a girls' night out/rebound hunt at a San Francisco bar, Elle isn't expecting tall, dark, and hummuna-hummuna, Nick Wright. This is no rebound guy. He's definitely, maybe, The One. In Coulda, Woulda, Shoulda, the interactive romantic comedy where you direct the plot, you play Elle as she and her pals put the "antics" in "romantics." Get ready to question everything you thought you knew about love, over-analyzing and second-guessing your way through hundreds of modern dating dilemmas and passionate predicaments. Will you accept a last minute date? Freak out if Nick wants space? Be the first to use the 'L' word? Live in sin? Or hold out for a ring? Wait, do you even want a ring? With 60 good, bad and inexplicable endings, you'll always have another second chance at love with Mr. Wright.

The final chapter in the award-winning and bestselling Hearts of the Anemoi series... Annalise Fallston made peace with postponing her big-city dreams to care for her ill father, but lately she's been filled with a restlessness not even her beloved painting dispels. Worse, the colors don't speak to her as they always have, and all her efforts produce dark, foreboding images of a dangerous man and a terrifying future. Devlin Eston, black-souled son of the evil Anemoi Eurus, is the only one who can thwart his father's plan to overthrow the Supreme God of Wind and Storms. But first, Dev must master the unstable powers he's been given. Distrusted and shunned by his own divine family, he never expected to find kindness and passion in the arms of a mortal. But Devlin's love puts Annalise in the path of a catastrophic storm, and in the final Armageddon showdown between the Anemoi and Eurus, sacrifices will be made, hearts broken, and lives changed forever...or lost. Each book in the Hearts of the Anemoi series is STANDALONE: \* North of Need \* West of Want \* South of Surrender \* East of Ecstasy
