If I had to pick the most robust, rich, and all around versatile science-fiction universe, it would be Warhammer 40,000 by a country mile. It has a deep, complex lore that is well-seeded in more than twenty years of rulebooks and codexes, all of which is wonderfully explored in various novels from Black Library.

The Indomitus Crusade begins! For nearly ten years, the Indomitus Crusade has waged a war of defiance and reconquest in the war-torn Imperium. Attached to Crusade Fleet Quintus | dubbed the Cursed Fleet by many | the Ultramarines of the Ithracas Vengeance are drawn to a stricken world. With millions enslaved, a malign necron technology siphons the souls of the innocent and heralds the Silent Kingdoms expansion. The Ultramarines face an impossible decision: mount a desperate last stand to destroy the Pariah Nexus, or break away and damn the entire sector to bring word of this ancient foe's resurgence to the only being capable of halting it | the Lord Primarch Roboute Guilliman.

An inexperienced soldier receives his first taste of the horrors of combat against the monstrous orks on the nightmarish, futuristic battlefields of the Warhammer 40,000 world. Original.

Ork action at it's finest, join us for the next epic Waaagh! Ufthak Blackhawk and the green tide descend upon Hephaesto | an Adeptus Mechanicus forge world bristling with loot | only to find it already under siege by the notorious Freebooter Kaptin Badrukk. When his warboss, Da Biggest Big Mek, orders temporary co-operation, Ufthak seeks to make a name for himself by crushing some of the Imperium's most advanced defenders and claiming the greatest prize. But with a sinister new war machine on the horizon, Badrukk's plotting, and a thoroughly annoying grot in his way, Ufthak is going to need the brutal kunnin' of Mork himself just to survive.

Explore a story told across the millennia that delves deep into a pair of fascinating necron characters, their relationship and their plans for the galaxy. Before the being called the Emperor revealed Himself, before the rise of the aeldari, before the necrontyr traded their flesh for immortal metal, the world was born in violence. Even when they inhabited bodies of flesh, Trazyn the Infinite and Orikan the Diviner were polar opposites. Trazyn, a collector of historical oddities, presides over a gallery full of the most dangerous artefacts | and people | of the galactic past. Orikan, a chronomancer without peer, draws zodiacs that predict and manipulate the future. But when an artefact emerges that may hold the key to the necrons' next evolution, these two obsessives enter a multi-millennia game of cat and mouse that ends civilisations, reshapes timelines, and changes both forever. As riddles unwind and ancient secrets are revealed, the question remains: will their feud save the necron race or destroy it?

Book 2 in the Vaults of Terra mini-series. Discover what happens when Chaos comes to the Throneworld itself for the first time in ten millennia.... Inquisitor Erasmus Crawl has discovered a terrible plot, its roots firmly planted in the very highest levels of Terra. Pursuing it is fraught with risk, but Crawl's sense of duty compels him to persevere. He and his acolyte Spinoza run down their leads in secret, knowing that their every move invites danger, but even as they begin to reveal the truth, a greater peril is unfolding in the skies | the Great Rift is becoming manifest. During the madness that threatens to tear Terra asunder, Crawl's Inquisitorial base of operations comes under attack and is badly ravaged. As his world begins to unravel and a new, bloody age dawns, can Crawl stay true to his course and expose the horror that lies at the heart of the Hollow Mountain?

Many are the horrors of the 41st Millennium, from alien tyrants to dark lords in the grip of Chaos. But arrayed against them are champions of humanity, who fight to defend all that is good in the galaxy. Wracked by the ravages of war, the galaxy has known no peace for untold millennia. To exist is to fight. To thrive is to conquer. Once-proud worlds lie in ruins at the hands of traitorous warlords and vile alien despots. Cowed by the unstoppable march of the

Ruinous Powers, humanity stands on the precipice of oblivion. All hope is banished. Yet, there are many who take up arms against these horrors. Noble heroes of the Imperium sally forth to do battle while enigmatic Inquisitors explore the shadowy secrets of this benighted era. In the terror of the 41st Millennium, righteous lords and iron-willed tyrants clash to decide who is worthy of inheriting the galaxy.

Book 6 in the Inferno! Series. Full of fantastic stories from the Worlds of Warhammer. Inferno! Volume 5 showcases some of the best new fiction from across Games Workshop's many universes: from the unending darkness of the war-torn 41st Millennium, to the gang-infested Underhive of Necromunda, through to the tumultuous lands of the Chaos-ravaged Mortal Realms.

Definitive omnibus edition of James Swallow's popular Sisters of Battle series. The Adepta Sororitas, or Sisters of Battle, are the military arm of the Ecclesiarchy, and their remit is to prosecute the enemies of mankind with extreme prejudice. Uniquely among the fighting forces of the Imperium, all the warriors of this organisation are female. Clad in ceramite power armour and armed with an awesome array of wargear, they fight with fanatical fervor for the glory of the Emperor, scourging both xenos and heretic alike with bolter and flamer. This omnibus collects together James Swallow's two classic Sisters of Battle novels, Faith & Fire and Hammer & Anvil, along with the prose version of the audio drama Red & Black.

The returned primarch Roboute Guilliman strives to save the Imperium from an era of death and darkness. Fell times have come to the galaxy. Cadia has fallen, destroyed by the onslaught of Chaos. A Great Rift in the warp has opened and from its depths have spewed daemons and the horrors of Old Night. But all hope is not lost... A hero, long absent, has returned and with him comes the wrath of the Ultramarines reborn. Roboute Guilliman, the last of the loyal primarchs, has arisen from millennia in stasis to lead the Imperium out of darkness on a crusade the likes of which has not been seen since the fabled days of the Emperor. But never before have the forces of Ruin amassed in such numbers, and nowhere is safe from despoliation. From the dreaded Scourge Stars come the hordes of the Plaguefather, Lord Nurgle, and their pustulent eye is fixed on the Ultramarines home world of Macragge. As the Indomitas Crusade draws to an end, Guilliman and his army of Primaris Space Marines race to Ultramar and a confrontation with the Death Guard.
