Regulating Obesity?: Government, Society, and Questions of Health explores the effectiveness of legal interventions aimed at promoting healthier lifestyles. In this book, W.A. Bogart suggests that the government's emphasis on encouraging weight loss and preventing excess weight gain have largely failed to resolve obesity and have instead fueled prejudice against overweight people. He suggests that a major challenge lies in shifting norms away from stigmatization of the obese and towards more nutritious and healthy lifestyle habits in addition to the acceptance of bodies in all shapes and sizes. Part of this challenge lies in the complex effects of law and

Management Series On Public Policy Administration

its relationship with norms, including the unintended consequences of regulation. *Regulating Obesity?* begins by arguing for the protection of the overweight and obese from discrimination through human rights laws. It then examines three other areas of interventions--marketing, fiscal policy, and physical activity--and how these interventions operate within the context of "health equity." Professor Bogart evaluates the effectiveness of legal regulation in addressing obesity and concludes that a healthier population is more important than a thinner population. *Regulating Obesity?* is the first book to engage in the comprehensive evaluation of this role for law and the implications of society's fascination

groups of older people. Exploring a range of topics, the chapters provide a critical review of the concept of precarity, highlighting the experiences of ageing that occur within the context of societal changes tied to declining social protection. Drawing together insights from leading voices across a range of disciplines, the book underscores the pressing need to address inequality across the life course and into later life.

The Munk Debates is Canada's premier international debate series, a highly anticipated cultural event and feast of ideas. Launched in 2008 by philanthropists Peter and Melanie Munk, these debates bring together

future of the North American economy is more uncertain than ever. Can individual entrepreneurship, corporate innovation, and governments create a new era of sustained economic growth? Or, will the ongoing financial crisis, political dysfunction in the United States, and the rise of emerging nations erode living standards in North America for the long term? In this edition of the Munk Debates -- Canada's premier international debate series -- Nobel Prize-winning economist Paul Krugman and former Chief Economist at the Bank of America-Merrill Lynch David Rosenberg square off against former director of President Obama's National Economic Council Lawrence Summers and bestselling author Ian Bremmer to

Malnutrition is a huge burden on the Arab Republic of Egypt's economy. Undernutrition—manifested by poor linear growth (stunting), wasting, and micronutrient deficiencies in children and by anemia among women of reproductive age—collectively saps an estimated two percent of Egypt's annual gross domestic product through forgone productivity and health care costs, representing an economic hemorrhaging of billions of U.S. dollars per year. Adding to this challenge is the co-occurrence of overweight and obesity among

# Read PDF Xxl Obesity And The Limits Of Shame U Of T Centre For Public

children, leading to a malnutrition double burden. Scaling Up Nutrition in the Arab Republic of Egypt aims to inform the development of nutrition policy and guide nutrition investments over the coming years. It reviews Egypt's nutrition situation, the interventions currently in place, and the opportunities, costs, benefits, and fiscal space implications of scaling up a set of high-impact interventions to address undernutrition. The book, a collaborative effort between the World Bank and UNICEF, is targeted at all those involved in developing and implementing nutrition interventions in Egypt and beyond.
